## TRAFFIC SIGNAL UPGRADE ON ROUTE 340/522 IN WARREN COUNTY

STAUNTON – The Virginia Department of Transportation will begin construction to upgrade a traffic signal the week of June 22.

The signal construction is located at Route 340/522 (Shenandoah Avenue) and the Interstate 66 eastbound and westbound ramps in Warren County. The project is an upgrade of two existing span wire signals to standard regional signals. Traffic delays are not expected and activities that may impact traffic flow will be performed during non-peak times.

Motorists are urged to drive with caution in the area of the signal construction.

Completion of the signal construction is anticipated for mid-August. All work is weather permitting.

Traffic alerts and traveler information can be obtained by dialing 511. In areas where 511 is unavailable, dial 1-866-MY511VA (866-695-1182) (TTY/TDD users, call 711). Traffic alerts and traveler information also are available at [511Virginia.org](http://511Virginia.org).

Highway safety is everyone's responsibility. Virginia's highway safety partnership — the Virginia Department of Transportation, Virginia Department of Motor Vehicles and Virginia State Police — challenges you to help prevent highway fatalities. Buckle up. Avoid distractions. Share the road. Drive drug- and alcohol-free. Obey speed limits. For more information on the Highway Safety Challenge and things you can do to avoid becoming Virginia's next traffic fatality, visit [www.safeVAhighways.org](http://www.safeVAhighways.org).
